"Saving life of a soldier is more important than killing an enemy"

EMERGENCY SURVIVAL BLANKET

PVMS No: 290070

The **EmRescue Emergency Survival Blanket** is an extremely lightweight and compact blanket constructed from a heat-reflective PET aluminium sheet.

It serves as a valuable tool to prevent hypothermia by minimizing heat loss through convection and the evaporation of perspiration.

In hot weather, it can serve multiple purposes, including providing shade to shield against radiated heat, offering protection from rain, and acting as a protective barrier against the wind.
