"Saving life of a soldier is more important than killing an enemy"

EMERGENCY SURVIVAL SLEEPING BAG

In extremely cold conditions, **EmRescue Sleeping Bag** can be used as an additional layer of insulation inside a regular sleeping bag to boost its warmth-retaining properties. It can serve as an emergency shelter when caught in unexpected

weather conditions or need a place to stay warm in the wilderness. It can be laid on the ground to provide insulation from the cold ground when sleeping outdoors, particularly during harsh winter survival situations.
